About Wego

Educational Philosophy :

Our educational goals at Wego are to foster holistic development, nurture an awareness of our cultural inheritance, achieve excellence and develop a broad world vision. Through cooperation with our students' parents, we aim to help our students develop :

- (1) A spirit of exploration to enhance their interest in learning.
- (2) Investigation skills to increase creativity.
- (3) Multiple intelligences and an openness to varied learning styles.
- (4) Problem solving skills to cultivate independence.

Curriculum :

Knowing that effective early childhood education requires the student to want to take the initiative to learn, share, create, and explore, we make sure to focus on student driven learning. Using distinctive Wego teaching methods, the teachers are there to help guide the students through various activities that allow students to be a part of integrated English classes, theme based activities, exploration centers and life skills programs that will help them succeed in the future.

Optimal Indoor and Outdoor Learning Spaces :

We have rich and safe indoor and outdoor learning environments that give children access to diverse learning facilities, hands-on materials and high tech equipment that further benefit and encourage their learning and growth. We also have multiple, spacious outdoor activity play areas for the children to explore and learn independently. The children are able to play together in the sandbox and multiple water areas and have access to a vast outdoor space with natural plants and trees where they are able to run, jump, roll, slide down slides, ride bikes, and have fun playing water games and exploring and interacting with their peers. We strive to not only educate their young minds, but to also broaden their horizons and help them develop physically as they grow and mature as young, active children and triumph in the greater world around us.

For more information, please feel free to visit our webpage:

<http://www.kg.wgps.tp.edu.tw> where you can learn more about Wego Preschool.

Daily Nutrition :

We have a five-star central kitchen in which our nutritionists and chefs carefully design and lay out the menu. They make sure they plan according to the children's needs in order to ensure they receive the proper nutrients necessary for growing children and to ensure happy, healthy, energetic children every day. Aside from a daily lunch, every morning and afternoon we also provide children with a snack. Our chefs are all certified and they cook the meals under the direct supervision of our head chef to make sure every single meal is prepared properly, safely, and most importantly, always delicious!
